REPORT ON THE OUTCOME OF THE **FIRST CALL FOR PROJECTS**

Introduction

The Budget 2016-2017 announced the setting up of the National CSR (NCSR) Foundation with the aim of bringing greater transparency in the use of CSR funds and better outcomes for the disadvantaged and vulnerable segments of our society.

The NCSR Foundation was established by Government in December 2016. It operates under the aegis of the Ministry of Social Integration and Economic Empowerment.

The Foundation started the registration of NGOs as from March 2017 and launched a first call for projects in April 2017.

This report presents the main outcome and some key statistics of the NCSR Foundation's first call for projects.

About the National CSR Foundation

The National CSR Foundation receives, manages and allocates CSR funds collected by the Mauritius Revenue Authority (MRA) in accordance with section 50L of the Income Tax Act 1995. Working with and through NGOs, the Foundation undertakes programmes and projects in ten priority areas for the benefit of individuals and families registered under the Social Register of Mauritius (SRM) and of vulnerable groups as defined in its Charter.

The Process

Call for Projects

The Foundation invited NGOs to apply for funds through a call for projects. The Call was communicated through email to organisations registered with the Foundation and published on the Ministry of Social Integration and Economic Empowerment's website and in the press. The application window was open from 18 April 2017 to 12 May 2017. Project proposals in the prescribed application form were accepted by email, post and hand delivery.

Project Assessment

Project proposals were assessed according to the priority areas, approved fields of intervention and assessment criteria as specified in the NCSR Foundation Guidelines 2017.

In addition, the following funding limits were applied:

- A maximum grant of Rs3 million per project
- Exclusion of capital investment such as vehicles and buildings
- Maximum project duration of 12 months.

The project assessment process, as described below, started on 18 May 2017.

2	<i>Thorough evaluation, scoring and ranking of project proposals</i>
3	<i>Evaluations examined by a project sub-committee consisting of Council members with recommendations for approvals made to Council</i>

The Foundation held working sessions with each of the successful applicants to:

- Elaborate on the project design and prepare an action plan covering the main activities to be undertaken during the implementation phase with indicative timeframes and KPIs
- Review the project costs and budget in line with the amount of funding approved
- Agree on a contract document and disbursement plan.

The contract document was signed by the Chairperson/Council Member/Secretary General of the National CSR Foundation and the President/Vice-President of each beneficiary organisation.

Outcome of the Project Assessment Exercise

231 projects (78 percent) of the 297 project proposals received were approved for funding by the Foundation. There were 42 (14 percent) cases of non-approval. These related mainly to capital investment (either in vehicles or buildings) and activities not in line with the Guidelines. 17 applications were classified as ineligible for funding as they were made by organisations not meeting the eligibility criteria for registration with the Foundation. A further 7 project proposals were withdrawn by the applicants themselves having benefited from other sources of funds.

Table 7: Distribution of Approved Projects and Amount of Funding by Priority Area

Geographical Distribution

Projects are generally implemented by NGOs locally or regionally (i.e. at the community or district level). There are fewer projects (37 percent) that target beneficiaries across the island.

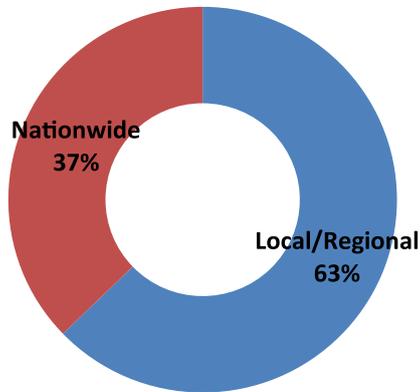

Figure 2: Local/Regional and National Projects

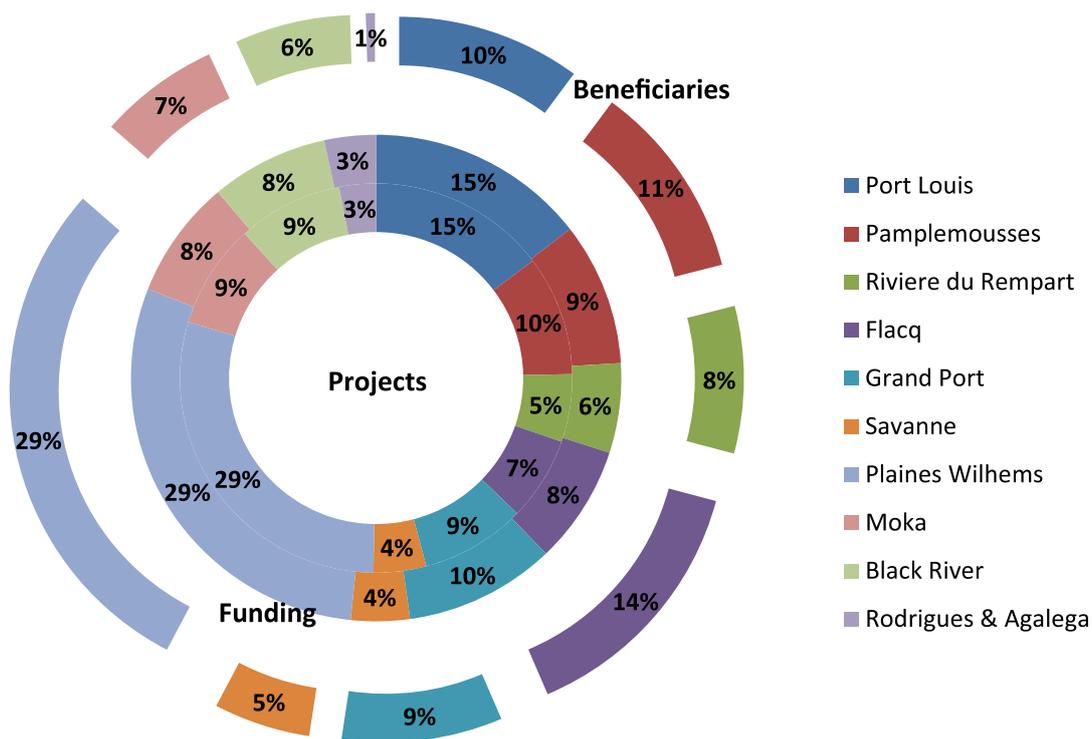

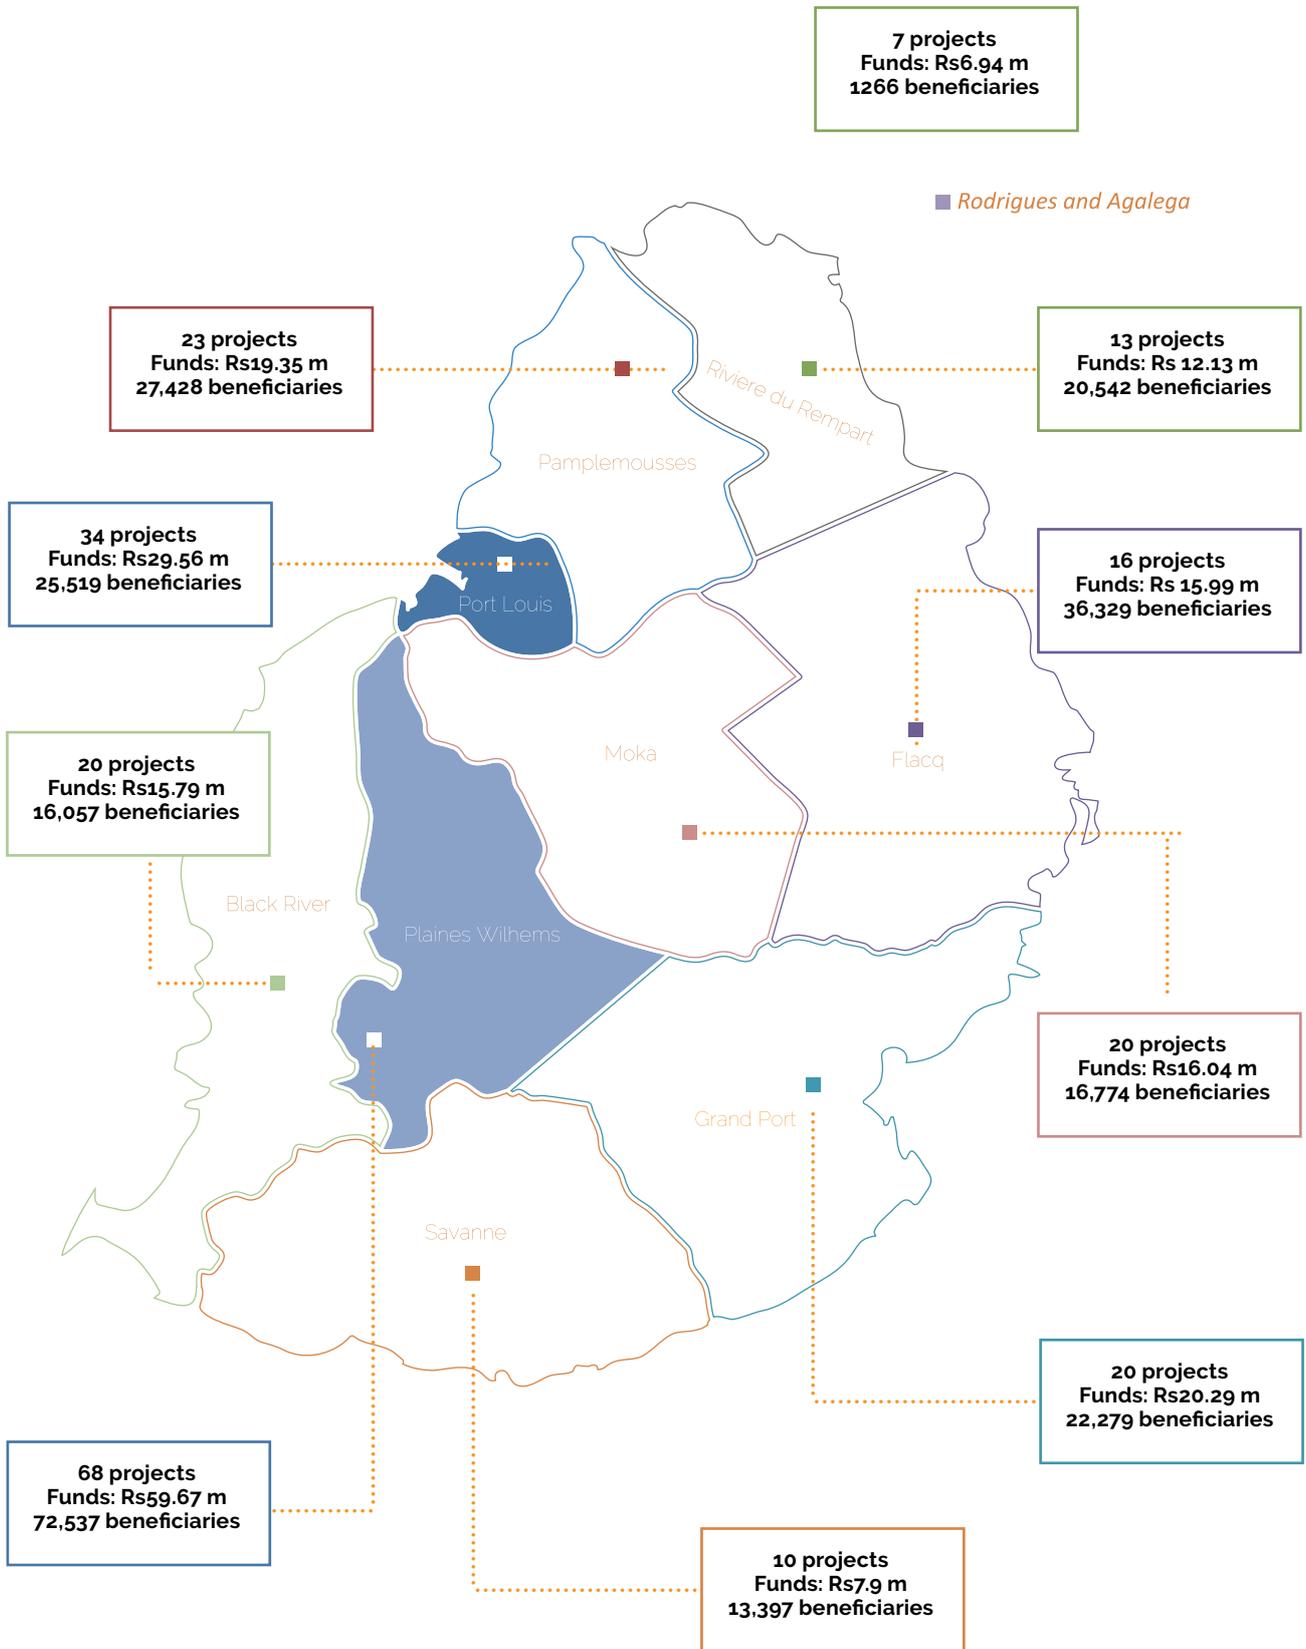

Figure 3: Percentage Distribution of Approved Projects, Funding and Beneficiaries by District

The majority of projects approved (29%) are in the district of **Plaines Wilhems** followed by **Port Louis** (15%). Accordingly, these two districts have been allocated the largest amount of funds. **Plaines Wilhems** and **Flacq** have the most beneficiaries. In contrast, **Savanne** has the lowest share of approved projects, amount of funding and beneficiaries. Projects targeting beneficiaries from **Rodrigues** and **Agalega** have also been approved by the Foundation.
